It is made of AISI 304 - 316 quality stainless steel sheet. It is hygienic, does not hold grease and dirt, and is easy to clean. There is a special siphon system that prevents odor, mice and insects from the installation. There is an anchor system so that it can be fixed perfectly to the ground during installation. Grill outlet diameters are 50 - 70 - 100 cm PVC.

It is welded on all sides with a special welding technology belonging to our company, and these welds are perfect both in terms of hygiene and appearance. It has a waste trap strainer so that food residues or other residues do not clog the drains. There is a cleaning cover to intervene in these blockages against any blockages that may occur in the installation.

It is made of AISI 304 - 316 quality stainless steel sheet. Insulated drains are applied especially in order to prevent water leakage to the lower floors of the areas where they are applied. In this way, thanks to the equipment on it, the water reaches the drain without the danger of leakage. It is hygienic, does not hold grease and dirt, and is easy to clean. There is a special siphon system that prevents odor, mice and insects from the installation. There is an anchor system so that it can be fixed perfectly to the ground during installation. Grill outlet diameters are 50 - 70 - 100 cm PVC.

It is welded on all sides with a special welding technology belonging to our company, and these welds are perfect both in terms of hygiene and appearance. It has a waste trap strainer so that food residues or other residues do not clog the drains. There is a cleaning cover to intervene in these blockages against any blockages that may occur in the installation.

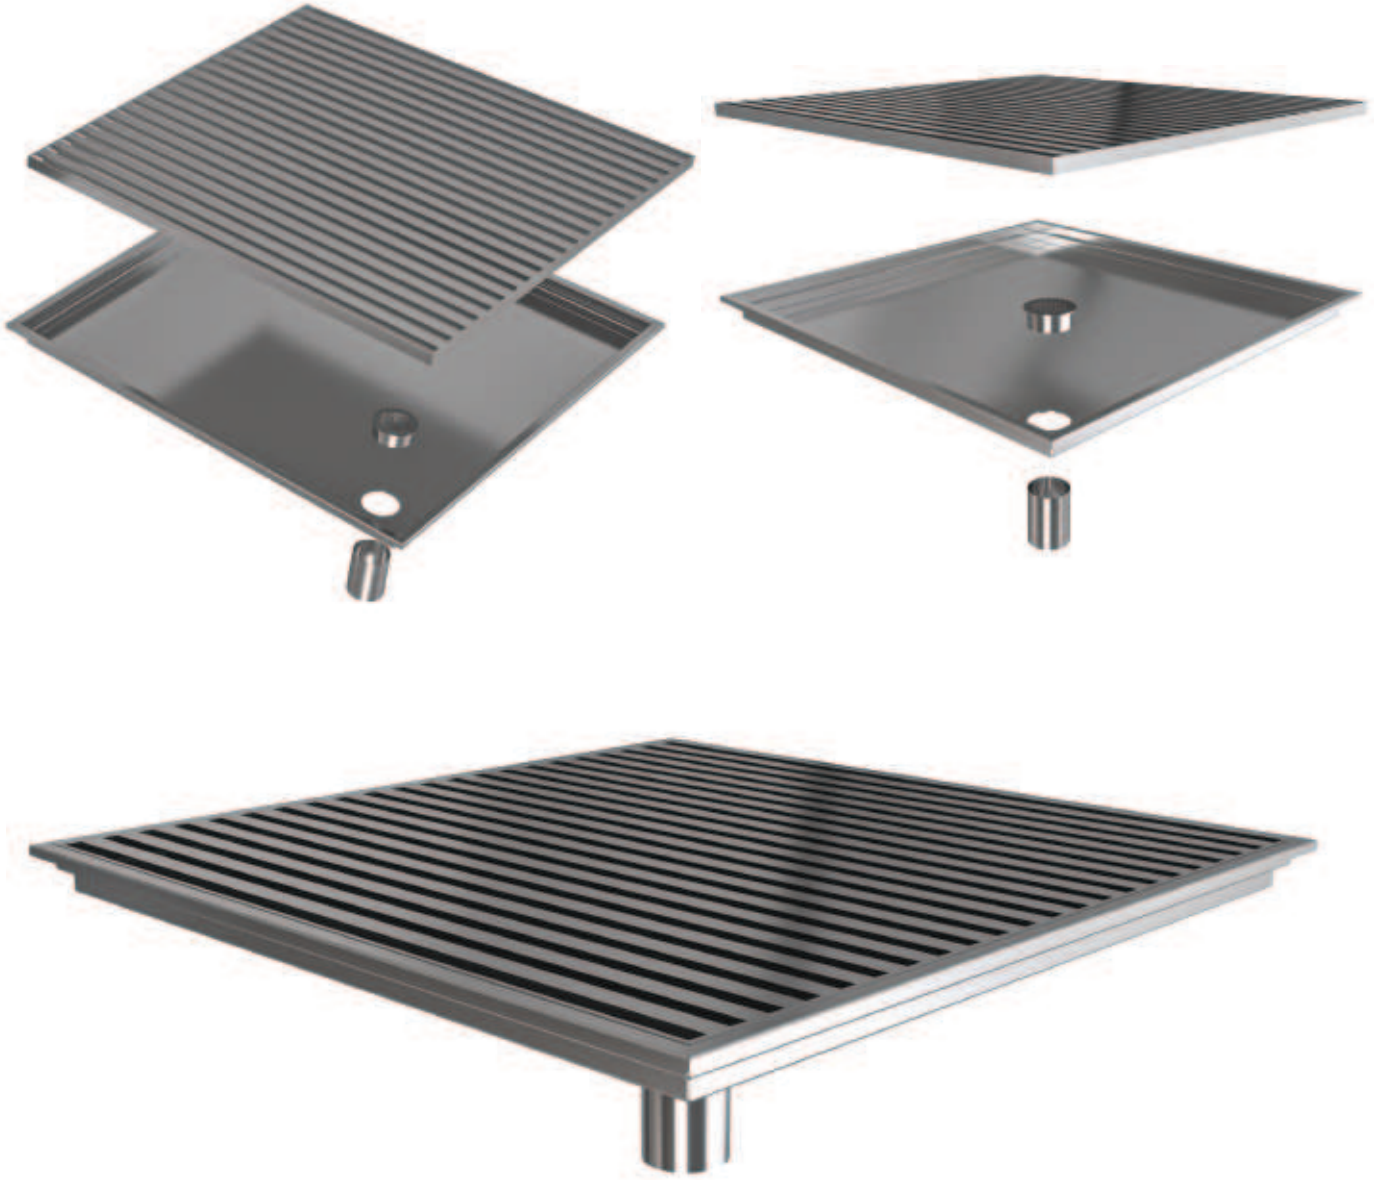

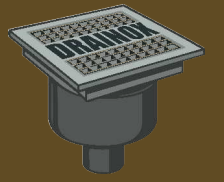

Slot Tip Yer Giderleri - Slot Type Floor Grids

304 and 316 quality stainless steel slot type floor drains that we are producing are suitable for use in all kinds of areas such as production facilities (heavy and light industry factories), hospitals, hotels, gasoline stations, shopping malls. It is hygienic and practical in use and takes incoming water or liquids very easily into its holes and transfers them to the sewage system. At the same time, it looks very stylish in appearance and does not look ugly and rough because it does not rust and corrode like channels made of iron. It is suitable for the passage of all kinds of vehicles (trucks, forklifts, pallet trucks, etc.). Station and slot channels are connected to each other and consist of 2 parts. The water and liquids entering the slot channel reach the station and are transferred to the sewer. It is measured and manufactured in accordance with your projects.

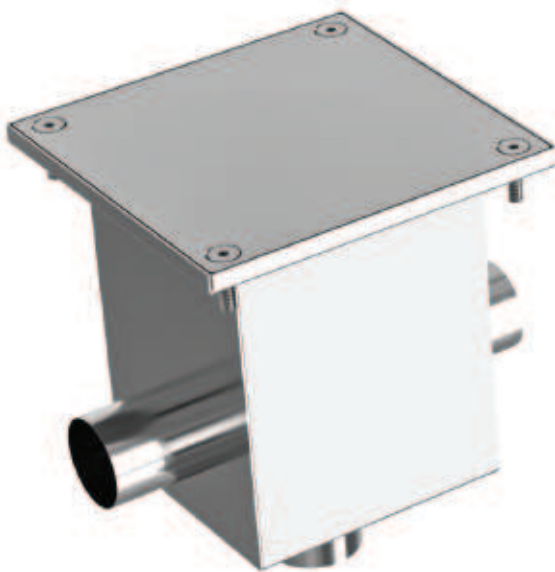

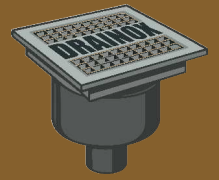

Özel Tip Yer Giderleri - Special Type Floor Grids

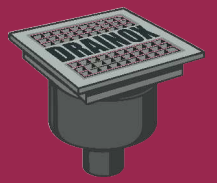

It is made of AISI 304 - 316 quality stainless steel sheet. It is hygienic, does not hold grease and dirt, and is easy to clean. There is a special siphon system that prevents odor, mice and insects from the installation. There is an anchor system so that it can be fixed perfectly to the ground during installation. Grill outlet diameters are 50 - 70 - 100 cm PVC.

It is welded on all sides with a special welding technology belonging to our company, and these welds are perfect both in terms of hygiene and appearance. It has a waste trap strainer so that food residues or other residues do not clog the drains. There is a cleaning cover to intervene in these blockages against any blockages that may occur in the installation.

According to the suitability of the place, special production is made in the desired dimensions in accordance with the quality standards. Floor grates collect the water spilled on the floor and the wastewater generated as a result of washing or using the appliances and deliver them to the sewer system.

Collectors are used for mechanical water fire extinguishing, fuel oil, propane gas, steam, fluid distribution at equal pressure and flow rate to the main lines in building mechanical water fire extinguishing. The desired number of mouths can be produced by special orders. Upon request, collectors with or without valves can be produced. It is made of AISI 304 - 316 quality stainless steel sheet. It is hygienic, does not hold oil and dirt, and is easy to clean. There is a special siphon system that prevents odor, mice and insects from the installation. There is an anchor system so that it can be fixed perfectly to the ground during installation. Collector outlet diameters are 50 - 70 - 100 cm PVC. It is welded on all sides with a special welding technology belonging to our company, and these welds are perfect both in terms of hygiene and appearance.

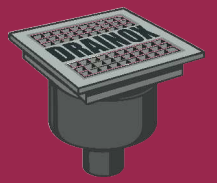

Yağ Ayırıcılar - Oil Separators

It is made of AISI 304 - 316 quality stainless steel sheet. It is hygienic, does not hold grease and dirt, and is easy to clean. There is a special siphon system that prevents odor, mice and insects from the installation. Oil separator outlet diameters are 50 - 70 - 100 cm PVC.

There are varieties such as under the sink and embedded in the floor, and they are determined and applied in accordance with the project. Thanks to its oil retention system, it prevents the mixing of oil into the installation.

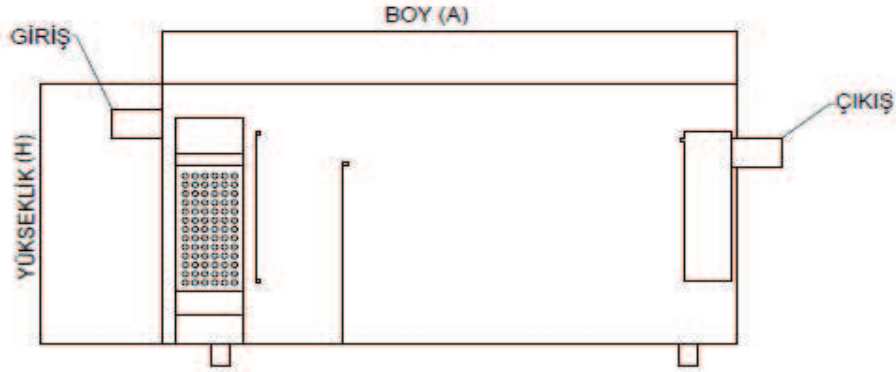

It is welded on all sides with a special welding technology belonging to our company, and these welds are perfect both in terms of hygiene and appearance. It has a waste trap strainer so that food residues or other residues do not clog the installation. It can be made in various sizes in accordance with the projects. The capacity of the right separator should be calculated according to the instantaneous maximum wastewater flow, not the average amount of water used per day. In this system, the user must check the oil separator reservoir for certain periods.

Hood Filters - Davlumbaz Filtreleri

Filters made of stainless steel both control the flames that occur in special cooking techniques and prevent the spread of the flame in case of a possible flame. If the filter is washed regularly in dishwashers according to usage, it can be used for many years without degeneration. 400°C color change, 1200°C melting. We make 430 and 304 quality according to the request. Special sizes can be made upon request.

Our Dimensions: 50x50 - 50x40 - 50x25 - 40x40 - 40x25
Special Size Manufacturing Is Made According To Customer Demand
